

# HELLO, SINGLE-STREAM RECYCLING!

Sanitary Service Company (SSC) brings you single stream recycling. SSC is replacing its 3 crates (blue, white, and red) with a 90 gallon container. This increases and improves efficiency, reduces operating costs for waste, and improves worker safety. Service rates will not be affected by these changes. Recycling collection remains the same with pickups every two weeks.

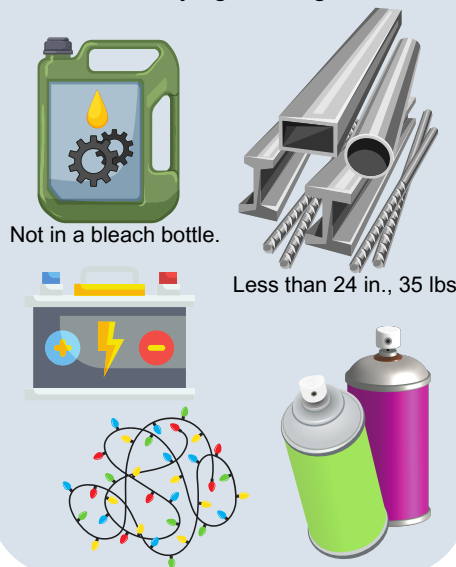

## NO NEED TO SORT!

All of the same **empty, dry, & clean recyclables** can be placed into your new tote.

## PLACE NEXT TO TOTE:

Used motor oil, vehicle batteries, scrap metal, empty aerosol cans, holiday light strings

## NOT ACCEPTED:

- ❌ NO PLASTIC BAGS OR WRAPPERS
- ❌ NO PET WASTE
- ❌ NO SHREDDED PAPER

## WHAT TO DO WITH YOUR 3 BINS?

Your 3 bins are yours to keep, or you can drop them off at the Roeder Drop Box & Recycling Facility, 1001 Roeder Ave
